Ha-Ra Natural Clean Pty Ltd,

P.O. Box 1060,

Wodonga Vic 3689

2nd June, 2000

Dear Belinda,

We would like to pass on our thanks for introducing us to the Ha Ra cleaning system.

Having bought the Ultra cloth some 2 1/2 years ago we decided to buy a second so that we could have one upstairs and one down. Your suggestion to see the 'system' was at first rejected by me as we only wanted a cloth.

When you arrived I was mesmerised by your demonstration. The transparency of the clear shower screen amazed me after you had finished. When you cleaned our very greasy B.B.Q, and then started cleaning the windows I was sold.

The system has made cleaning our Bed and Breakfast a breeze. Fly screens get cleaned now where they could barely be seen through before.

Our original attraction to the Ultra cloth was we did not need to use chemicals and only a little water required. Our B & B is set on 36 1/2 acres of bush. We are environmentally conscious and use a worm toilet which also takes all of our grey water. Our worms are very happy that we don't overload them with chemicals.

So impressed were we that we are now agents for Ha-Ra.

Our local Environment and Health Officer was so impressed with our Ha -Ra demonstration he has given us a letter of praise and good luck which we show to any interested persons.

Good Luck and Regards,

Nora + Kay.
