Dear Kay and Nora

Re: Hara Cloth Cleaning System

Thank you for taking the time to demonstrate the Hara Cloth Cleaning System. Any product that has the ability to reduce the number of chemicals we release into our environment is worthwhile promoting.

As your clients become more aware of the correct procedural applications of detergents and sanitizers the advantages of the HARA Cleaning System may create a valuable alternative to current cleaning methods.

The use of sanitizing agents is still an important consideration and a separate process step that should compliment the cleaning step from time to time, as determined by cleaning schedules, etc.

I wish you both the very best in your new venture and offer my assistance in the above educational matters if required.

Yours sincerely

Matt Parsons
