Re: Marketing Workshop

Dear Leon,  
I'm excited!

After attending your weekend Marketing Workshop I'm excited and confident about being in business.

I must admit, generating new leads was never my strong point, but I now have the knowledge on how to get other businesses to send a constant stream of new customers to me! If this is the only piece of information I use from the Workshop, I know my business is going to grow rapidly

I had previously read about this system but never quite knew how to implement it. It was a bit like baking a cake, I had a list of all the ingredients but I did not have the method!

The workshop was easy to follow and understand, but more importantly, easy to put into practice. I would highly recommend this programme to **anyone** in business today.

The weekend gave me invaluable information that I now have forever, no matter what I may do in the future.

Leon, I thank you for sharing this powerful knowledge with me.
