Dear Leon,

After the seminar of last weekend, I feel very confident that I can really make my own small business work brilliantly. You have shown me and taught me lots of very useful and important tools, and given me great support and encouragement to get myself going. I felt the benefits of your advice immediately, which has inspired me to move forward very quickly and my success is already growing.

When a person such as myself decides to go into business after so many years of being an employee, there are so many grey areas and confusing things to deal with, I felt I really needed some support. I feel as though I have the opportunity to gain that support from you and from the BBI marketing system. Had I simply gone out and bought the books for myself, I would not have been able to gain so much benefit from it as I have since we started seminars and workshops.

Thank you for seeing my talents and giving me the tools to help me fully utilise them.

Best Regards,
Katherine Anderson
